Importantly, Marchetti and O'Dell will advocate for framing analytical writing around students' (of all levels and abilities) passions and expertise. And just as they do in their previous Heinemann book, *Writing with Mentors*, they will share resources for bringing many different kinds of analytical writing into the classroom"--

The Art of Teaching Jay Parini 2005-01-13 Becoming an effective teacher can be quite painful and exhausting, taking years of trial and error. In *The Art of Teaching*, writer and critic Jay Parini looks back over his own decades of trials, errors, and triumphs, in an intimate memoir that brims with humor, encouragement, and hard-won wisdom about the teacher's craft. Here is a godsend for instructors of all levels, offering valuable insight into the many challenges that educators face, from establishing a persona in the classroom, to fostering relationships with students, to balancing teaching load with academic writing and research. Insight abounds. Parini shows, for instance, that there is nothing natural about teaching. The classroom is a form of theater, and the teacher must play various roles. A good teacher may look natural, but that's the product of endless practice. The book also considers such topics as the manner of dress that teachers adopt (and what this says about them as teachers), the delicate question of politics in the classroom, the untapped value of emeritus professors, and the vital importance of a settled, disciplined life for a teacher and a writer. Parini grounds all of this in personal stories of his own career in the academy, tracing his path from unfocused student--a self-confessed "tough nut to crack"--to passionate writer, scholar, and teacher, one who frankly admits making many mistakes over the years. Every year, thousands of newly minted college teachers embark on their careers, most with scant training in their chosen profession. *The Art of Teaching* is a perfect book for these young educators as well as anyone who wants to learn more about this difficult but rewarding profession.

The Rise of Silas Lapham William Dean Howells 1983-04-28 William Dean Howells' richly humorous characterization of a self-made millionaire in Boston society provides a paradigm of American culture in the Gilded Age. After establishing a fortune in the paint business, Silas Lapham moves his family from their Vermont farm to the city of Boston, where they awkwardly attempt to break into Brahmin society. Silas, greedy for wealth as well as prestige, brings his company to the brink of bankruptcy, and the family is forced to return to Vermont, financially ruined but morally renewed. As Kermit Vanderbilt points out in his introduction, the novel focuses on important themes in the American literary tradition: the efficacy of self-help and determination, the ambiguous benefits of social and economic progress, and the continual contradiction between urban and pastoral values. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

Teaching Character Analysis Jessica A. Jaeger 2009 Research Questions: In what ways will focusing on writing strong assertions about characters using trait words and supporting those assertions with evidence from the text influence students' ability to write a character analysis essay? (1) To what extent will having students generate a class-based list of character trait words engage students in their character analysis writing? (2) How will the process of modeling by collaboratively writing a character analysis essay with students in class influence their writing character analysis essays? Research Activities: Context: This research took place in an eighth-grade English classroom in an agricultural community in northern California. The class was comprised of 21 female students and 10 male students of various ability levels. Eight focus students, 5 female and 3 male, were selected. One of the male students was an EL student, and one of the female students was RFEP. Students were chosen from the Advanced to

Basic range as determined by the California STAR test. Methods and Data: The intervention had two focuses: developing precise trait vocabulary and developing strong assertions and support for use in a character analysis essay. The entire intervention lasted approximately two months. Throughout the intervention, numerous activities were implemented to teach students trait vocabulary and effective ways to support a thesis statement. These activities included generating a class-based list of character traits, supporting assertions with specific textual evidence, engaging in a debate based on assertions and evidence, creating a rubric for a character analysis essay, discussing a teacher-modeled essay, and writing three separate character analysis essays. Pre- and post-intervention achievement data consisted of students' essay responses to a character analysis prompt in a timed 50-minute period. Essays were analyzed for exactness and accuracy of trait words present in the writing and a well-developed and supported thesis statement. Students were also given self-assessment surveys for pre- and post-intervention attitude data. Observation data were gathered during and after intervention activities in a teacher research journal. Results: The results of the intervention showed significant student improvement. Between the baseline and outcome achievement data sets, the scores for thesis and support shifted markedly from Below Basic and Basic to Proficient and Advanced. On the baseline data, only fourteen students (46%) in the target class scored Proficient or Advanced, but on the outcome data, twenty-six students (84%) scored in this range. Fourteen of those twenty-six (54%) scored Advanced, meaning that over half of the target class wrote essays containing well-developed thesis statements that were supported by several textual references. From baseline to outcome data, the scores for students' use of trait vocabulary also showed improvement. On the baseline data, no students scored Advanced and only five scored Proficient in the vocabulary category. The rest of the students scored Basic or Below Basic. On the outcome data, however, no students scored Basic or Below Basic, instead scoring Proficient (9 students, 29%) and Advanced (22 students, 71%). The significant majority of the class scored Advanced, meaning they used appropriate vocabulary and described the character they were analyzing through exact and accurate trait words. Students' indication of understanding both character analysis and thesis assertions and support also increased significantly from the baseline to outcome attitude data, as well as student confidence levels for writing a character analysis essay. For baseline data, only 27% of students reported they were "confident" and no students reported "very confident"; for outcome data, 40% of students reported "confident" and an additional 24% reported "very confident." Findings indicate that focused instruction that sequences work on skills over time should be used to improve the use of precise character trait vocabulary and the ability to support strong assertions in character analysis essays. Grade: Eighth Grade. Research Methods: Writing Samples, Writing Assessment, Survey-Attitude, Survey-Concepts, Observation-Field Notes, Student Work. Curriculum Areas: English Language Arts, Writing. Instructional Approaches: Writing-Response to Literature, Writing-Rubrics, Modeling, Writing-Explicit Instruction.

Lord of the Flies William Golding 2003-12-16 Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.
