Ideological Manipulation of Children's Literature Through Translation and Rewriting Vanessa Leonardi 2020-07-06 This book explores the topic of ideological manipulation in the translation of children's literature by addressing several crucial questions, including how target language norms and conventions affect the quality of a translation, how translations are selected on the basis of what is culturally accepted, who is involved in the selection of what should be translated for children in the target culture, and how this process takes place. The author presents different ways of looking at the translation of children's books, focusing particularly on the practices of intralingual and interlingual translations as a form of rewriting across a selection of European languages. This book will be of interest to Translation Studies and children's literature scholars, as well as those with a wider interest in the impact of ideology on culture.

The Girl Who Saved Christmas Matt Haig 2017-10-31 "If somewhere in the afterlife Roald Dahl met Charles Dickens and they cooked up a new Christmas tale, it couldn't have much on this fleet, verbally rambunctious, heart-stealing follow-up to *A Boy Called Christmas*."—The New York Times Amelia Wishart was the first child ever to receive a Christmas present. It was her Christmas spirit that gave Santa the extra boost of magic he needed to make his first trip around the world. But now Amelia is in trouble. When her mother falls ill, she is sent to the workhouse to toil under cruel Mr. Creeper. For a whole year, Amelia scrubs the floors and eats watery gruel, without a whiff of kindness to keep her going. It's not long before her hope begins to drain away. Meanwhile, up at the North Pole, magic levels dip dangerously low as Christmas approaches, and Santa knows that something is gravely wrong. With the help of his trusty reindeer, a curious cat, and Charles Dickens, he sets out to find Amelia, the only girl who might be able to save Christmas. But first Amelia must learn to believe again. . . . "Matt Haig has an empathy for the human condition, the light and the dark of it, and he uses the full palette to build his excellent stories." —Neil Gaiman, Newbery-winning author of *The Graveyard Book* "With a little bit of naughty and a lot of nice, this Christmastime yarn is a veritable sugarplum." —Kirkus Reviews

Split Possession 2008 This book is a functional-typological study of possession splits in European languages. It shows that genetically and structurally diverse languages such as Icelandic, Welsh, and Maltese display possessive systems which are sensitive to semantically based distinctions reminiscent of the alienability correlation. These distinctions are grammatically relevant in many European languages because they require dedicated constructions. What makes these split possessive systems interesting for the linguist is the interaction of semantic criteria with pragmatics and syntax. Neutralisation of distinctions occurs under focus. The same happens if one of the constituents of a possessive construction is syntactically heavy. These effects can be observed in the majority of the 50 sample languages. Possessive splits are strong in those languages which are outside the Standard Average European group. The bulk of the European languages do not behave much differently from those non-European languages for which possession splits are reported. The book reveals interesting new facts about European languages and possession to typologists, universals researchers, and areal linguists.
