The Black Holocaust For Beginners S.E. Anderson 2007-08-21 Virtually anyone, anywhere knows that six million Jewish human beings were killed in the Jewish Holocaust. But how many African human beings were killed in the Black Holocaust – from the start of the European slave trade (c. 1500) to the Civil War (1865)? And how many were enslaved? The Black Holocaust, a travesty that killed millions of African human beings, is the most underreported major event in world history. A major economic event for Europe and Asia, a near fatal event for Africa, the seminal event in the history of every African American – if not every American! – and most of us cannot answer the simplest question about it. Here is a sample of what you will get from the painstakingly researched, painfully honest The Black Holocaust For Beginners: "The total number of slaves imported is not known. It is estimated that nearly 900,000 came to America in the 16th Century, 2.75 million in the 17th Century, 7 million in the 18th, and over 4 million in the 19th – perhaps 15 million in total. Probably every slave imported represented, on average, five corpses in Africa or on the high seas. The American slave trade, therefore, meant the elimination of at least 60 million Africans from their fatherland." The Black Holocaust For Beginners – part indisputably documented chronicle, part passionately engaging narrative, puts the tragic event in plain sight where it belongs! The long overdue book answers all of your questions, sensitively and in great depth.

A Primer for Teaching African History Trevor R. Getz 2018-03-22 A Primer for Teaching African History is a guide for college and high school teachers who are teaching African history for the first time, for experienced teachers who want to reinvigorate their courses, for those who are training future teachers to prepare their own syllabi, and for teachers who want to incorporate African history into their world history courses. Trevor R. Getz offers design principles aimed at facilitating a classroom experience that will help students navigate new knowledge, historical skills, ethical development, and worldviews. He foregrounds the importance of acknowledging and addressing student preconceptions about Africa, challenging chronological approaches to history, exploring identity and geography as ways to access historical African perspectives, and investigating the potential to engage in questions of ethics that studying African history provides. In his discussions of setting goals, pedagogy, assessment, and syllabus design, Getz draws readers into the process of thinking consciously and strategically about designing courses on African history that will challenge students to think critically about Africa and the discipline of history.

Voices of Resistance Alison Baker 1998-01-01 Providing new information on women's participation in the Moroccan independence movement, Voices of Resistance offers a rare opportunity to hear Moroccan

women speak freely about their personal lives. Each woman is introduced in terms of her family background and personal style, and the interviews are given texture and context by references to Moroccan history and popular culture, including contemporary songs and poems. These women are storytellers, and they lived through stirring times. Their active struggle against French colonialism also challenged and redefined traditional Moroccan ideas about women's roles in society. The narratives reconstruct the little-known history of Moroccan feminism and nationalism, and probe the lives of a remarkable group of Islamic women whose voices have never been heard until now.

Encyclopedia of African History Kevin Shillington 2005 Offers more than one thousand entries covering all aspects of African history, civilization, and culture.

The Fortunes of Africa Martin Meredith 2014-10-14 Africa has been coveted for its riches ever since the era of the Pharaohs. In past centuries, it was the lure of gold, ivory, and slaves that drew fortune-seekers, merchant-adventurers, and conquerors from afar. In modern times, the focus of attention is on oil, diamonds, and other valuable minerals. Land was another prize. The Romans relied on their colonies in northern Africa for vital grain shipments to feed the population of Rome. Arab invaders followed in their wake, eventually colonizing the entire region. More recently, foreign corporations have acquired huge tracts of land to secure food supplies needed abroad, just as the Romans did. In this vast and vivid panorama of history, Martin Meredith follows the fortunes of Africa over a period of 5,000 years. With compelling narrative, he traces the rise and fall of ancient kingdoms and empires; the spread of Christianity and Islam; the enduring quest for gold and other riches; the exploits of explorers and missionaries; and the impact of European colonization. He examines, too, the fate of modern African states and concludes with a glimpse of their future. His cast of characters includes religious leaders, mining magnates, warlords, dictators, and many other legendary figures—among them Mansa Musa, ruler of the medieval Mali empire, said to be the richest man the world has ever known. “I speak of Africa,” Shakespeare wrote, “and of golden joys.” This is history on an epic scale.

A History of Modern Africa Richard J. Reid 2020-01-15 The new, fully-updated edition of the acclaimed textbook covering 200 years of African history A History of Modern Africa explores two centuries of the continent's political, economic, and social history. This thorough yet accessible text help readers to understand key concepts, recognize significant themes, and identify the processes that shaped the modern history of Africa. Emphasis is placed on the consequences of colonial rule, and the links between the precolonial and postcolonial eras. Author Richard Reid, a prominent scholar and historian on the subject, argues that Africa's struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century, the effects of which are still felt in the present day. The new third edition offers substantial updates and revisions that consider recent events and historiography. Greater emphasis is placed on African agency, particularly during the colonial period, and the importance of the long-term militarization of African political culture. Discussions of the postcolonial period have been updated to reflect recent developments, including those in North Africa. Adopting a long-term approach to current African issues, this text: Explores the legacies of the nineteenth century and the colonial period in the context of the contemporary era Highlights the role of nineteenth century and long-term internal dynamics in Africa's modern challenges Combines recent scholarship with concise and effective narrative Features maps, illustrations, expanded references, and comprehensive endnotes A History of Modern Africa: 1800 to the Present, 3rd Edition is an excellent introduction to the subject for undergraduate students in relevant courses, and for general readers with interest in modern African history and current affairs.

Decolonization in Africa John D. Hargreaves 2014-07-30 John Hargreaves examines how the British, French, Belgian, Spanish and Portuguese colonies in tropical Africa became independent in the postwar years, and in doing so transformed the international landscape. African demands for independence and colonial plans for reform - central to the story - are seen here in the wider context of changing international relationships.

Livingstone's Last Journey Sir Reginald Coupland 2016-10-27 Sir Reginald Coupland was widely regarded as an authority on David Livingstone, a Scottish Congregationalist pioneer medical missionary and an explorer in Africa, who was one of the most popular national heroes of late-19th-century in Victorian Britain. Coupland's previous works on African history include *Kirk on the Zambesi* (1928) and *The Exploitation of East Africa, 1856-1890* (1939). Intended as a sequel to *Kirk on the Zambesi*, *Livingstone's Last Journey* was written several years prior to its first publication in 1945, but was then laid aside while Coupland undertook a full-scale study of East African history. It then became due and ready for completion in the autumn of 1939, but was further delayed by the outbreak of World War II. This postponement proved profitable however, as in the course of the war new and valuable documentary material—in particular the Kirk and Waller Papers—became available and were thus able to be included in its eventual publication. A remarkable biographical account by an exceptional historian. "One of the soundest and best-balanced English biographies that I have had the satisfaction of reading for a very long time. It is a remarkable book."—Peter Grenwell in *Daily Mail* "It is a noble book about a very noble man; it describes a period of British and European history in which man's struggles and problems greatly resembled our own."—Sir John Squire in *Illustrated London News* "This is a book which Englishmen may be proud to read."—*London Quarterly*

A History of Race in Muslim West Africa, 1600–1960 Bruce S. Hall 2011-06-06 The mobilization of local ideas about racial difference has been important in generating, and intensifying, civil wars that have occurred since the end of colonial rule in all of the countries that straddle the southern edge of the Sahara Desert. From Sudan to Mauritania, the racial categories deployed in contemporary conflicts often

hearken back to an older history in which blackness could be equated with slavery and non-blackness with predatory and uncivilized banditry. This book traces the development of arguments about race over a period of more than 350 years in one important place along the southern edge of the Sahara Desert: the Niger Bend in northern Mali. Using Arabic documents held in Timbuktu, as well as local colonial sources in French and oral interviews, Bruce S. Hall reconstructs an African intellectual history of race that long predated colonial conquest, and which has continued to orient inter-African relations ever since.

**King Leopold's Rule in Africa** Edmund Dene Morel 1905  
**Ghana and the Rawlings Factor** Kevin Shillington 1992 Tells the story of two popular revolutions in Ghana, both of them led by the same man, Flight Lieutenant Jerry Rawlings, now Head of Ghana's government, the Provisional National Defence Council. The book includes interviews with many of the key players in the drama, including Rawlings himself.

**African History For Beginners** Herb Boyd 2007-08-21 African History For Beginners explores the rich history of this continent of contrasts. Discover the glory of the Pharaohs and Towers of Zimbabwe, the cosmology of the Yoruba, the courage of the Masai and the golden wonders of Mali, the art treasures of the Bushongo and the sophistication of the Egyptians. It is a unique documentary portrait of the Africans' struggle to preserve their cultural heritage and homeland. Recent archeological discoveries indicate that Africa was the birth place of humankind. Over the ages, the riches and wonders of Africa have attracted the world. Yet the Africans themselves often remained unknown or misunderstood. Here is a book to set the historical record straight.

**Causes and Consequences of Independence in Africa** Kevin Shillington 1998 Examines the beginning of the independence movement in Africa and the results once freedom was achieved.

**The Colonisation of the Southern Tswana, 1870-1900** Kevin Shillington 1985 Settlement of the lands of the Southern Tswana, incorporated since 1977 into the sovereign republic of Bophuthatswana, formed from former homelands in the Orange Free State, Transvaal and northern Cape Province, South Africa. The scope of the study is the Tlhaping, Rolong and Tlharo chieftaincies that lived between the Vaal and Molopo rivers, who were colonized as the Crown Colonies of Griqualand West, 1871-1880 and British Bechuanaland, 1885-1895, and annexed afterwards to Cape Colony. The Rolong living in present-day Botswana are excluded from the study.

**The Idea of Development in Africa** Corrie Decker 2020-10-29 The Idea of Development in Africa challenges prevailing international development discourses about the continent, by tracing the history of ideas, practices, and 'problems' of development used in Africa. In doing so, it offers an innovative approach to examining the history and culture of development through the lens of the development episteme, which has been foundational to the 'idea of Africa' in western discourses since the early 1800s. The study weaves together an historical narrative of how the idea of development emerged with an account of the policies and practices of development in colonial and postcolonial Africa. The book highlights four enduring themes in African development, including their present-day ramifications: domesticity, education, health, and industrialization. Offering a balance between historical overview and analysis of past and present case studies, Elisabeth McMahon and Corrie Decker demonstrate that Africans have always co-opted, challenged, and reformed the idea of development, even as the western-centric development episteme presumes a one-way flow of ideas and funding from the West to Africa.

**Africa** John Reader 1998-11-05 Drawing on many years of African experience, John Reader has written a book of startling grandeur and scope that recreates the great panorama of African history, from the primeval cataclysms that formed the continent to the political upheavals facing much of the continent today. Reader tells the extraordinary story of humankind's adaptation to the ferocious obstacles of forest, river and desert, and to the threat of debilitating parasites, bacteria and viruses unmatched elsewhere in the world. He also shows how the world's richest assortment of animals and plants has helped - or hindered - human progress in Africa.

**History of Africa** Kevin Shillington 2012-05-14 In a single volume, History of Africa offers readers a richly illustrated narrative introduction to the history of the entire continent, from earliest times through to the present day. Building on the book's established reputation and success, this third edition has been revised and updated throughout in the light of new research and recent events. A companion website now also supports the text. Kevin Shillington traces the history of the continent through the ancient world to medieval, modern and contemporary Africa. He explores the early emergence of farming; the kingdoms of Ancient Egypt, Aksum and Meroe; medieval empires; the spread and impact of Islam; the role of trade and religion; and the development of Africa's wide range of pastoral, agricultural and hunting

societies. History of Africa, third edition: • contains nearly 100 specially-drawn maps and almost 200 illustrations, a number of which are new for this edition • takes a deliberately African viewpoint of the European involvement in Africa • provides a carefully constructed examination of the colonial period and the problems of post-colonial Africa • presents expanded coverage of modern Africa with more on issues such as economic concerns, globalization, international organisations, climate change, HIV/AIDS, and the role of China • opens with a new Introduction which includes a helpful historiographical overview • features a companion website offering additional historical debate and critical discussion to complement specific parts of the text; key points to remember for each chapter; a variety of essay questions and exercises; and other resources to enhance the learning experience. Eminently clear and approachable, History of Africa remains the essential text for anyone with an interest in this remarkable continent and its fascinating past.

The book is divided into five parts: the state of the art of Africana studies; the evolution of the history of black people; analysis of the contributions of the black world; the present and future status of these peoples; and the societies and values of black people. The book also includes a chronology of significant events in the history of peoples of African descent and a number of maps.

Fortunes of Africa Martin Meredith 2014-09-11 In this vast and vivid panorama of history, Martin Meredith, bestselling author of *The State of Africa*, follows the fortunes of Africa over a period of 5,000 years. With compelling narrative, he traces the rise and fall of ancient kingdoms and empires; the spread of Christianity and Islam; the enduring quest for gold and other riches; the exploits of explorers and missionaries; and the impact of European colonisation. He examines, too, the fate of modern African states and concludes with a glimpse into their future. This is history on an epic scale.

Africa since 1940 Frederick Cooper 2002-10-10 Frederick Cooper's book on the history of decolonization and independence in Africa is part of the textbook series *New Approaches to African History*. This text will help students understand the historical process out of which Africa's position in the world has emerged. Bridging the divide between colonial and post-colonial history, it allows readers to see just what political independence did and did not signify and how men and women, peasants and workers, religious leaders and local leaders sought to refashion the way they lived, worked, and interacted with each other.

The History of Africa Molefi Kete Asante 2014-10-10 There is a paradox about Africa: it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. *The History of Africa* redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

Abina and the Important Men Trevor R. Getz 2015-06-01 Winner of the James Harvey Robinson Prize from the American Historical Association--and widely acclaimed by educators and students--*Abina and the Important Men*, Second Edition, is a compelling and powerfully illustrated "graphic history" based on an 1876 court transcript of a West African woman named Abina, who was wrongfully enslaved and took

her case to court. The book is a microhistory that does much more than simply depict an event in the past; it uses the power of illustration to convey important themes in world history and to reveal the processes by which history is made. The story of Abina Mansah--a woman "without history" who was wrongfully enslaved, escaped to British-controlled territory, and then took her former master to court--takes place in the complex world of the Gold Coast at the onset of late nineteenth-century colonialism. Slavery becomes a contested ground, as cultural practices collide with an emerging wage economy and British officials turn a blind eye to the presence of underpaid domestic workers in the households of African merchants. The main scenes of the story take place in the courtroom, where Abina strives to convince a series of "important men"--a British judge, two Euro-African attorneys, and a jury of local leaders--that her experiences and perceptions matter. "Am I free?" Abina inquires. Throughout both the court case and the flashbacks that dramatically depict her life in servitude, both the defendants and members of the court strive to "silence" Abina and to impose their own understandings and meanings upon her. The story seems to conclude with the short-term success of the "important men," as Abina loses her case. But it doesn't end there: Abina is eventually redeemed. Her testimony is uncovered in the dusty archives by Trevor Getz and, through Liz Clarke's illustrations, becomes a graphic history read by people around the world. In this way, the reader takes an active part in the story along with the illustrator, the author, and Abina herself. Following the graphic history in Part I, Parts II-V provide detailed historical context for the story, a reading guide that reconstructs and deconstructs the methods used to interpret the story, and strategies for using Abina in various classroom settings. This second edition features a new gender-rich section, Part V: Engaging Abina, which explores Abina's life and narrative as a woman. Focusing on such important themes as the relationship between slavery and gender in pre-colonial Akan society, the role of marriage in Abina's experience, colonial paternalism, and the meaning of cloth and beads in her story, this section also includes a debate on whether or not Abina was a slave, with contributions by three award-winning scholars--Antoinette Burton, Sandra Greene, and Kwasi Konadu--each working from different perspectives. The second edition includes new, additional testimony that was rediscovered in the National Archives of Ghana, which is also reflected in the graphic history section.

Do Not Disturb Michela Wrong 2021-03-30 A powerful investigation into a grisly political murder and the authoritarian regime behind it: Do Not Disturb upends the narrative that Rwanda sold the world after one of the deadliest genocides of the twentieth century. We think we know the story of Africa's Great Lakes region. Following the Rwandan genocide, an idealistic group of young rebels overthrew the brutal regime in Kigali, ushering in an era of peace and stability that made Rwanda the donor darling of the West, winning comparisons with Switzerland and Singapore. But the truth was considerably more sinister. Vividly sourcing her story with direct testimony from key participants, Wrong uses the story of the murder of Patrick Karegeya, once Rwanda's head of external intelligence and a quicksilver operator of supple charm, to paint the portrait of a modern African dictatorship created in the chilling likeness of Paul Kagame, the president who sanctioned his former friend's assassination.

Luka Jantjie Kevin Shillington 2011 Luka Jantjie is today a largely forgotten hero of resistance to British colonialism. His place in South African history has tended to be overshadowed by events elsewhere in the region. This book attempts to redress the balance by recording his remarkable story. In 1870, at the beginning of the Kimberley diamond mining boom that was to transform southern Africa, Luka Jantjie was the first independent African ruler to lose his land to the new colonialists, who promptly annexed the diamond fields. His outspoken stand against the hypocrisy of colonial 'justice' earned him the epithet: "a wild fellow who hates the English". As the son of an early Christian convert, Luka was brought up to respect peace and non-violence; his boycott of rural trading stores in the early 1890s was perhaps the earliest use of non-violent resistance in colonial South Africa. His steady refusal to bow to colonial demands of subservience intensified the enmity of local colonists determined to 'teach him a lesson'. As many of his people succumbed to colonial pressures, Luka was twice forced to take up arms to defend himself and his people from colonial attacks. His life ended in a dramatic and heroic last stand in the ancestral sanctuary of the Langeberg mountain range; its tragic consequences stretched far into the next century.

Albert René Kevin Shillington 2014 Albert Rene is a towering figure of modern Seychelle, an archipelago in the Indian Ocean, east of mainland Southeast Africa and northeast of the island of Madagascar. He arouses intense emotions in both admirers and opponents. This first full-length biography analyzes Rene's early years, his political awakening, and his struggle for full electoral support in the face of strong opposition. Frustrated by the slow pace of Seychelle's economic development and the extent of social division along racial lines, Albert Rene took the fateful decision to seize power by coup d'etat in 1977. It is a dramatic story, which includes an attempted invasion by South African mercenaries. In 1992-93, Rene finessed a change from a one-party socialist state to multi-party rule. He bequeathed to his successor a transformed nation that had shed its oppressive racial hierarchy and had attained the highest social and economic indicators within the African region. Underlying the political drama is the story of the compassion and romance of the all too human man that is Albert Rene. The book adds authority to this account by the depth of research through archives and contemporary newspapers, as well as extensive interviews covering both his political and personal life, the latter including interviews with all three of Albert Rene's wives. \*\*\* "A saga of political drama, struggle, and ultimately hope...fascinating from cover to cover, and highly recommended especially for public and college library biography collections." -- Midwest Book Review, Library Bookwatch, The Biography Shelf, October 2014 [Subject: Biography, Politics, History, African Studies]
