Terry Terry Wadsworth Warne 2012-11-27 As a young child, Terry Wadsworth's days were full of happiness and adventure. Her father grew pineapples in the rich, dark, soil on a remote plateau at the edge of the Philippine jungle, and life--like the golden pineapples--was sweet. She had a little pony and lived in a beautiful compound that the company had built. The only threats to her edenic life were the occasional cobra or python--that is, until a much fiercer enemy struck 5,000 miles away at Pearl Harbor. Within hours of the surprise attack in Hawaii, the Japanese military launched a similar assault on the Philippine Islands and began their campaign to overtake the American Protectorate, with Terry and her family on the dangerous battlefield. Soon the peaceful skies above their paradisiacal home were swarming with military war machines. General Douglas MacArthur and family, Philippine President Manuel Quezon and family, plus many other important people hid from the Japanese in Terry's remote home as they secretly left the Philippines for Australia. As the fighting intensified, Terry's family abandoned their home to hide in the dense mountain jungle and wait for an opportunity to escape to Australia. But when the Japanese pushed the American forces into retreat, Terry and her family found themselves with only one option. Surrender! This is a story of survival in spite of disease, starvation, and death's beckoning. Terry's unconquerable spirit as an eight-to eleven- year-old prisoner of war is a reminder that even in the most deplorable circumstances, life is what you make of it. Amazing! The Earth's Children Series 6-Book Bundle Jean M. Auel 2013-02-18 A literary phenomenon, Jean M. Auel's prehistoric odyssey is one of the best-loved sagas of our time. Employing meticulous research and the consummate artistry of a master storyteller, Auel paints a vivid panorama of the dawn of modern humans. Through Ayla, an orphaned girl who grows into a beautiful and courageous young woman, we are swept up in the harsh and beautiful Ice Age world, home to the Clan of the Cave Bear.

Now, for the first time, all six novels in the Earth's Children® series are available in one convenient eBook bundle: THE CLAN OF THE CAVE BEAR THE VALLEY OF HORSES THE MAMMOTH HUNTERS THE PLAINS OF PASSAGE THE SHELTERS OF STONE THE LAND OF PAINTED CAVES A natural disaster leaves a young girl wandering alone in an unfamiliar and dangerous land until she is found by a woman of the Clan, people very different from her own kind. To them, blond, blue-eyed Ayla looks peculiar and ugly—she is one of the Others, those who have moved into their ancient homeland; but Iza cannot leave the girl to die and takes her with them. Iza and Creb, the old Mog-ur, grow to love her, and as Ayla learns the ways of the Clan and Iza's way of healing, most come to accept her. But the brutal and proud youth who is destined to become the Clan's next leader sees Ayla's differences as a threat to his authority. He develops a deep and abiding hatred for the strange girl of the Others who lives in their midst, and is determined to get his revenge. Praise for the Earth's Children® series "Auel is a highly imaginative writer. She humanizes prehistory and gives it immediacy and clarity."—The New York Times Book Review "Storytelling in the grand tradition . . . From the violent panorama of spring on the steppes to musicians jamming on a mammoth-bone marimba, Auel's books are a stunning example of world building. They join the short list of books, like James Clavell's *Shogun* and Frank Herbert's *Dune*, that depict exotic societies so vividly that readers almost regard them as 'survival manuals.'"—Vogue "Jean Auel has established herself as one of our premier storytellers. . . . Her narrative skill is supreme."—Chicago Tribune "Pure entertainment at its sublime, wholly exhilarating best."—Los Angeles Times "Readers who fell in love with little Ayla will no doubt revel in her prehistoric womanhood."—People "Lively and interesting, enhanced greatly by the vividly colored backdrop of early humanity . . . Auel is a prodigious researcher."—The Washington Post Book World "Among modern epic spinners, Auel has few peers. . . . She deftly creates a whole world, giving a sense of the origins of class, ethnic, and cultural differences that alternately divide and fascinate us today."—Kirkus Reviews (starred review)

Children of Deh Koh Erika Friedl 1997-11-01 The people Friedl studied are Shi'a Lurs living in the high mountains of southwest Iran. This book focuses on children and compliments her earlier work on women of the same village (see document no. 6.) The same families and names appear in both books. Beginning with pregnancy and birth, she discusses the development of children by age group and gender up to marriage. The material conveyed is personal and anecdotal, covering children's behavior and play and their relationships with each other and adults. She masterfully relates their thinking and feelings through acute observation and verbatim conversation. Rural familial dynamics and gender relations are artfully revealed.

Evil Arse Soup: Three Ultra-Dark Comedies Dave Franklin 2013-12-13 Welcome.

Come amuse yourself in the company of slime-dripping vagina jaws, Aboriginal ABBA tribute bands and Deliverance-quoting parrots. This trio of politically incorrect comedies, which bleakly focus on male inadequacy and misogyny, will introduce you to a bunch of chronic misfits kicking around Wales, Australia and South Korea. But be warned - you may grow to like some of them. Just make sure you don't leave this little encyclopaedia of dysfunction on your maiden aunt's chair... Book 1: Looking For Sarah Jane Smith Marty's living in a Welsh town he hates, doing a job he's lost interest in and so bored he can't even be bothered with sex. But a new life beckons in Australia. It's also a chance to get away from his stupid mates, the loveable loser John and the ultra-macho Wasp Boy. Maybe he'll even meet an exquisite girl like his Doctor Who heroine, Sarah Jane Smith, and live happily ever after... Looking for Sarah Jane Smith - For anyone who suspects life's a bit rubbish. Part road trip and part celebration of idiotic male friendship, Looking for Sarah Jane Smith is sure to strike a chord with those who appreciate The Inbetweeners, Peep Show and Bill Hicks. Book 2: Manic Streets of Perth Perth. It's thousands of miles from anywhere, it's got a rubbish Bell Tower and not enough of the laidback locals are being eaten by sharks. Well, that's what expat reporter Paul Lewis thinks, but after a lonely Manic Street Preachers fan reveals her disastrously unlucky life suddenly nothing's the same... Manic Streets of Perth - Where a snake-wielding robber is just the start of your troubles. Gentler and warmer than Dave Franklin's other novels, Manic Streets of Perth is an easy to read comedy. Book 3: English Toss on Planet Andong Every year thousands of people travel to faraway lands to teach English as a foreign language. The fools. One such expat is Paul Taylor, a heartbroken Aussie looking for a fresh start in a South Korean classroom. The lack of training isn't much of a help, but it's the baffling natives and unhinged flatmates that really start to convince him he's crash-landed in another galaxy... Packed with over the top characters, English Toss is a demented sitcom of a novel that revels in the extremes of expat dislocation. Total length: 240,000 words.

Forgiveness is one of the best tools we have at our disposal to create a better life for ourselves. Leave that baggage behind as you put the past in the past— where it belongs! Forgiveness is an amazing tool—it can transform your life in just one second if you decide that you want to use its power. Learn how to manage your hurt with or without an apology and focus on what's really important. Read about marriages being strengthened, families getting back together, grown children coming to understand their parents, and people overcoming the worst transgressions—even crimes. These men and women walked forward light and free, and you can, too—onto the bright, warm, welcoming road ahead. And, because no one's perfect, you'll also learn how to apologize if you're the one in the wrong... and how to use the power of self-forgiveness to find peace and happiness.

Steer Toward Rock Fae Myenne Ng 2008-05-13 "The woman I loved wasn't in love with me; the woman I married wasn't a wife to me. Ilin Cheung was my wife on paper. In deed, she belonged to Yi-Tung Szeto. In debt, I also belonged to him. He was my father, paper too." Steer Toward Rock, Fae Myenne Ng's heartbreaking novel of unrequited love, tells the story of the only bachelor butcher at the Universal Market in San Francisco. Jack Moon Szeto--that was the name he bought, the name he made his life by--serves the lonely grass widows whose absentee husbands work the farmlands in the Central Valley. A man who knows that the body is the only truth, Jack attends to more than just their weekly orders of lamb or beef. But it is the free-spirited, American-born Joice Qwan with whom Jack falls in love. A woman whose life is guided by more than simple pain, Joice hands out towels at the Underground Bathhouse and sells tickets at the Great Star Theatre; her mother cleans corpses. Joice wants romance and she wants to escape Chinatown, but Jack knows that she is his ghost of love, better chased than caught. It is the 1960s and while the world is on the edge of an exciting future, Jack has not one grain of choice in his life. When his paper wife arrives from China he is forced to fulfill the last part of his contract and to stand before the law with the woman who is to serve as mistress to his fake father. Jack has inherited a cruel cultural legacy. A man with no claim to the past, his only hope is to make a new story for himself, one that includes both Joice and America. Not since Bone, Fae Myenne

Ng's highly praised debut novel, has a work so eloquently revealed the complex loyalties of Chinese America. *Steer Toward Rock* is the story of a man who chooses love over the law, illuminating a part of U.S. history few are aware of, but one that has had echoing effects for generations.

Families and Food in Hard Times Rebecca O'Connell 2021-05-24 Food is fundamental to health and social participation, yet food poverty has increased in the global North. Adopting a realist ontology and taking a comparative case approach, *Families and Food in Hard Times* addresses the global problem of economic retrenchment and how those most affected are those with the least resources. Based on research carried out with low-income families with children aged 11-15, this timely book examines food poverty in the UK, Portugal and Norway in the decade following the 2008 financial crisis. It examines the resources to which families have access in relation to public policies, local institutions and kinship and friendship networks, and how they intersect. Through 'thick description' of families' everyday lives, it explores the ways in which low income impacts upon practices of household food provisioning, the types of formal and informal support on which families draw to get by, the provision and role of school meals in children's lives, and the constraints upon families' social participation involving food. Providing extensive and intensive knowledge concerning the conditions and experiences of low-income parents as they endeavour to feed their families, as well as children's perspectives of food and eating in the context of low income, the book also draws on the European social science literature on food and families to shed light on the causes and consequences of food poverty in austerity Europe.

Three Who Survived Ann Stalcup 2011-02-09 This book tells the stories of three child survivors of World War II. One spent her childhood in England, the other two in Germany. Each of their stories is quite different. Pat was four-and-a-half when the war between Great Britain and Germany began on September 3, 1939, but it wasn't until she was seven that her family life in England changed drastically. For Hilda and Ursula, both born in Berlin, their worlds turned upside down on January 30, 1933, when Hitler was elected Chancellor of Germany. Hilda would be seven four months later; Ursula had just had her seventh birthday. All three children survived the war for different reasons and in different locations. One escaped Germany days before war was declared, one barely lived through a bombing raid in England, while the third survived a concentration camp. As young children, all three had wonderfully happy childhoods, childhoods that changed suddenly and unexpectedly for each of them when they were seven.

The Queen's Embroiderer Joan DeJean 2018-05-01 From the author of *How Paris Became Paris*, a sweeping history of high finance, the origins of high fashion, and a pair of star-crossed lovers in 18th-century France. Paris, 1719. The stock market is surging and the world's first millionaires are buying everything in sight. Against this backdrop, two families, the Magoulets and the Chevrots, rose to prominence only to plummet in the first stock market crash. One family built its name on the burgeoning financial industry, the other as master embroiderers for Queen Marie-Thérèse and her husband, King Louis XIV. Both patriarchs were ruthless money-mongers, determined to strike it rich by arranging marriages for their children. But in a Shakespearean twist, two of their children fell in love. To remain together, Louise Magoulet and Louis Chevrot fought their fathers' rage and abuse. A real-life heroine, Louise took on Magoulet, Chevrot, the police, an army regiment, and the French Indies Company to stay with the man she loved. Following these families from 1600 until the Revolution of 1789, Joan DeJean recreates the larger-than-life personalities of Versailles, where displaying wealth was a power game; the sordid cells of the Bastille; the Louisiana territory, where Frenchwomen were forcibly sent to marry colonists; and the legendary "Wall Street of Paris," Rue Quincampoix, a world of high finance uncannily similar to what we know now. *The Queen's Embroiderer* is both a story of star-crossed love in the most beautiful city in the world and a cautionary tale of greed and the dangerous lure of windfall profits. And every bit of it is true.

The Valley of the Shadow of Death Julie Bozza 2017-12-01 Joshua Delaney and Carmine Angelo Trezini, cop and mobster, should have absolutely nothing in common. Yet, accidentally brought together, they rapidly became both lovers and allies against organized crime boss Matthew Picano. Of course, taking down a man like that was never going to be easy – but Josh has no idea of the scale of the sacrifice he will eventually be called upon to make.

The Children's House of Belsen Hetty E. Verolme 2013 During the Holocaust the young Hetty was rounded up by the Nazis and sent for 14 long months to Belsen Concentration Camp. Hetty and her two little brothers were forcefully separated from their parents. This is her story; how she as one of the eldest children had to become the 'Little Mother' not only taking care of her two brothers but also forty young children living in Barrack 211 known as 'The Children's House of Belsen'. At fourteen-years-old, an unimaginable task amidst the inhuman conditions of hunger, cold, sickness death and despair, she kept up her spirits. A truly remarkable story of a young girl's determination.

Essentials of Chinese Materia Medica Li Shizhen The book of ??? Ben Cao Gang Mu, translated as "Essentials of Chinese Materia Medica" was completed by Li Shizhen in 1578, after conducting readings of 800 other medical reference books and carrying out 30 years of field study. For this and many other achievements, Li Shizhen is compared to Shennong, a god in Chinese mythology who gave instruction on agriculture and herbal medicine. The Compendium of Materia Medica has 53 volumes in total. The text is written classified into 16 divisions and 60 orders. For every herb there are entries on their names, a detailed description of their appearance and odor, nature, medical function, effects and side recipes etc. With the publication of Compendium of Materia Medica, not only did it improve the classification of how traditional medicine was compiled and formatted, but it was also an important medium in improving the

credibility and scientific values of biology classification of both plants and animals. Compendium of Materia Medica is also more than a mere pharmaceutical text, for it includes a vast amount of information on topics as wide-ranging as biology, chemistry, geography, mineralogy, geology, history, and even mining and astronomy, which might appear to have little connection with herbal medicine.

Their Dogs Came with Them Helena Maria Viramontes 2007-04-03 Award-winning author of *Under the Feet of Jesus*, Helena Maria Viramontes offers a profoundly gritty portrait of everyday life in L.A. in this lyrically muscular, artfully crafted novel. In the barrio of East Los Angeles, a group of unbreakable young women struggle to find their way through the turbulent urban landscape of the 1960s. Androgynous Turtle is a homeless gang member. Ana devotes herself to a mentally ill brother. Ermila is a teenager poised between childhood and political consciousness. And Tranquilina, the daughter of missionaries, finds hope in faith. In prose that is potent and street tough, Viramontes has choreographed a tragic dance of death and rebirth. Julia Alvarez has called Viramontes "one of the important multicultural voices of American literature." *Their Dogs Came with Them* further proves the depth and talent of this essential author. Helena Maria Viramontes is the acclaimed author of *The Moths and Other Stories* and *Under the Feet of Jesus*, a novel; and the coeditor, with Maria Herrera-Sobek, of two collections: *Chicana (W)Rites: On Word and Film and Chicana Creativity and Criticism*. She is the recipient of the 2006 Luis Leal Award and the John Dos Passos Award for Literature, and her short stories and essays have been widely anthologized and adopted for classroom use and university study. Viramontes lives in Ithaca, New York, where she is a professor in the Department of English at Cornell University.

Salt Wars Michael F. Jacobson 2021-09-14 How food industry lobbyists and a small group of scientists have successfully fought government efforts to reduce dangerous levels of sodium in our food. A high-sodium diet is deadly; studies have linked it to high blood pressure, strokes, and heart attacks. It's been estimated that excess sodium in the American diet causes as many as 100,000 deaths and many billions of dollars in avoidable health-care costs each year. And yet salt is everywhere in our diets--in packaged foods, fast foods, and especially meals at table-service restaurants. Why hasn't salt received the sort of public attention and regulatory action that sugar and fat have? In *Salt Wars*, Michael Jacobson explains how the American food industry and a small group of scientists have successfully fought government efforts to reduce dangerous levels of sodium in our food.

Attila D'hun's Storybook/Cookbook Attila d'Hun Gyarmati 2005-05-23 I offer this book as a troubadour, leading his listeners to a mystical playground. There are stories to most recipes in this book, and they are not based on, or subjected to scientific

research, but rather, whimsical in nature. Delightful reading and delicious eating was, is and will be, as it should, through the ages. Attila d Huns Storybook-Cookbook is a collection of multi cultural, ancient, authentic, original and contemporary recipes. The author hopes to inspire many inexperienced cooks to create delicious meals to impress friends and family members by reading the stories first. The association of the stories and related recipes, in this book, will go beyond Pavlovs classical conditioning theory. The stimulus will be at a higher conscious level, where the intelligent and curious inquisition will stimulate the readers salivary glands and taste buds. Easy to follow recipes! Cooking was never so easy, and hopefully will never be the same!

Acid Reflux in Children Jamie Koufman 2018-05-15 A Parent's Guide to Reflux in Infants, Children & Teens "Meeting Dr. Jamie Koufman completely changed my life. My symptoms of chronic cough and shortness of breath had been diagnosed since my childhood as asthma. Dr. Koufman identified that I had reflux, not asthma, and guided me step by step how to cure it. I have my life back and I owe it all to Dr. Koufman's insight and help." -Suze Orman, Host of the Suze Orman Show, CNBC This is an important book that will help change how America eats and guide parents to heal our needlessly sick children and adolescents. There are 80 million infants, children and teens in America, and most have unhealthy diets. Every year, tens of millions are misdiagnosed as having asthma, allergies, nasal congestion, ear infections, chronic cough and croup, when the real problem is acid reflux. A bad diet and childhood obesity are both strongly associated with reflux. So, when a child has a respiratory disease and is not getting better with medical treatment, we believe parents should consider that reflux may be the problem. Why? Because it can be fixed! Reflux is the greatest masquerader of our time. It can be the cause of almost any kind of respiratory symptom or disease. Unlike adults who may have obvious reflux symptoms (indigestion and heartburn), children are almost always "silently refluxing," and silent means that reflux is mysterious, difficult to diagnose and easy to overlook. Kids with reflux rarely complain of heartburn or indigestion. Respiratory reflux is the missing link between bad diet and many symptoms. Today, respiratory reflux is so common it is almost invisible. Pediatricians and medical specialists often diagnose children with asthma, sinusitis or allergy, when what they really have is reflux. Doctors all too frequently prescribe children antacid medications without beneficial effects. The real villain is not vanquished by pills. Most medications won't do a thing for children's reflux symptoms and can sometimes cause more harm than good. Reflux is not only uncomfortable and inconvenient, it's dangerous. If left untreated, reflux can wreak havoc on a child's ears, nose, throat, airways, lungs and digestive system. Our successful reflux rehabilitation program is a platform for change, with the long-term goal of health maintenance and disease prevention. And, for overweight children, another benefit of this book's reflux program is that they will lose weight naturally and slowly with a diet that is simply "lean, clean, green and alkaline." When we fix a child's reflux, parents' knowledge translates to significant dietary changes for the entire family. Out go the juice, soda, chocolate milk and other unhealthy choices. When parents understand that too much acid and sugar in the diet, and eating supper too late in the day has a big negative impact on the family's health, they act. Their children's well-being is at stake. Once reflux is identified or even suspected, the fix is more in parents' control than many realize. Acid Reflux in Children is the revolutionary book for parents who want to help their children lead healthy, active lives, free of acid reflux and the many other symptoms this condition can

create. Here's to our future - HEALTHY CHILDREN!
