Building Research Tools with Google For Dummies Harold Davis 2005-04-08 Google—a funny name for a fabulous tool. You've already used it to look up all sorts of information on the Web almost instantly. Now what if you could use its amazing abilities to turbo-charge your research on a grand scale? *Building Research Tools With Google For Dummies* can help you do just that. In plain English, it shows you easy ways to: Ask Google exactly what you want to know Determine whether what you need can actually be found through Google, and where to look if the answer is “no” Improve your research results Present your findings in a way that makes sense Write your own specialized search applications—if you want to To get the most from Google, you need to understand Google. *Building Research Tools With Google For Dummies* explains how Google works and how you can build more effective queries (hint: it's a lot more than just using the “Advanced Search” techniques!) It even shows you how to think like a researcher and how to package the results of your research so it means something to your audience. You'll be able to: Understand Google research techniques and use the custom search-related syntax Recognize Google's strengths—and limitations Target your search by using Google operators Use Google to research photos, or even an entire industry Improve the effectiveness of your results by understanding Google's comparative methodology Build custom tools using WDSL and Web Services You don't have to become a programmer to use Google, but if you know a little about software development and want to explore new, more focused search techniques, *Building Research Tools With Google For Dummies* has a

section just for you. It introduces you to the Google API, shows you how to download a developer key, and leads you through building a C# .Net Google application. On the companion Web site, you'll find the source code and software discussed in the book as well as links to lots of other resources for researchers. Before you know it, you'll be Googling your way to research success!

Wildlife of Star Wars TerryL Whitlatch 2016-04-19 This field guide offers a unique look at the creatures that populate the Star Wars galaxy. Supper's on the Table, Come Home Rachel Masters 2008

Junior's Dessert Cookbook Alan Rosen 2011 For those who have dreamed about furniture-making but have been afraid to pick up a chisel or turn on a table saw, Rough Cut Woodworking with Tommy Mac is the answer. Famed woodworker Tommy MacDonald and with WGBH Boston have joined forces to produce a 12-episode television show by the same name. This book features all 12 episodes, which include smaller projects like a

Shaker Step Stool to larger undertakings like a Pilgrim Blanket Chest. All 12 traditional style pieces teach fundamental woodworking techniques in Tommy's encouraging and fun style and each features step-by-step instruction with photos, drawings, a materials list and skill-building techniques that focus on the fundamentals of woodworking.

The Infatuations Javier Marías 2013-08-13 A New York Times Book Review Notable Book, NPR Great Reads, and Onion A.V. Club Best Book of 2013 Each day before work María Dolz stops at the same café. There she finds herself drawn to a couple who is also there every morning. Observing their seemingly perfect life helps her escape the listlessness of her own. But when the man is brutally murdered and María approaches the widow to offer her condolences, what began as mere observation turns into an increasingly complicated entanglement. Invited into the widow's home, she meets--and falls in love with--a man who sheds disturbing new light on the crime. As María recounts this story, we are given a murder mystery brilliantly encased in a metaphysical enquiry, a novel that grapples with questions of love and death, chance and coincidence, and above all, with the slippery essence of the truth and how it is told. This ebook edition includes a reading group guide.

Genius Foods Max Lugavere 2018-03-20 New York Times Bestseller Discover the critical link between your brain and the food you eat and change the way your brain ages, in this cutting-edge, practical guide to eliminating brain fog, optimizing brain health, and achieving peak mental performance from media personality and leading voice in health Max Lugavere. After his mother was diagnosed with a mysterious form of dementia, Max Lugavere put his successful media career on hold to learn everything he could about brain health and performance. For the better half of a decade, he consumed the most up-to-date scientific research, talked to dozens of leading scientists and clinicians around the world, and visited the country's best neurology departments—all in the hopes of understanding his mother's condition. Now, in Genius Foods, Lugavere presents a comprehensive guide to brain optimization. He uncovers the stunning link between our dietary and lifestyle choices and our brain functions, revealing how the foods you eat directly affect your ability to focus, learn, remember, create, analyze new ideas, and maintain a balanced mood. Weaving together pioneering research on dementia prevention, cognitive optimization, and nutritional psychiatry, Lugavere distills groundbreaking science into actionable lifestyle changes. He shares invaluable insights into how to improve your

brain power, including the nutrients that can boost your memory and improve mental clarity (and where to find them); the foods and tactics that can energize and rejuvenate your brain, no matter your age; a brain-boosting fat-loss method so powerful it has been called “biochemical liposuction”; and the foods that can improve your happiness, both now and for the long term. With Genius Foods, Lugavere offers a cutting-edge yet practical road map to eliminating brain fog and optimizing the brain’s health and performance today—and decades into the future.

An Unexpected Cookbook Chris-Rachael Oseland 2017-09-17 Recipes for each of the seven Hobbit meals of breakfast, second breakfast, elevenses, luncheon, afternoon tea, dinner, and supper.

Homeland Cory Doctorow 2013-02-05 In Cory Doctorow's wildly successful Little Brother, young Marcus Yallow was arbitrarily detained and brutalized by the government in the wake of a terrorist attack on San Francisco—an experience that led him to become a leader of the whole movement of technologically clued-in teenagers, fighting back against the tyrannical security state. A few years later, California's economy collapses, but Marcus's hacktivist past lands him a job as webmaster for a crusading politician who promises reform. Soon his former nemesis Masha emerges from the political underground to gift him with a thumbdrive containing a Wikileaks-style cable-dump of hard evidence of corporate and governmental perfidy. It's incendiary stuff—and if Masha goes missing, Marcus is supposed to release it to the world. Then Marcus sees Masha being kidnapped by the same government agents who detained and tortured Marcus years earlier. Marcus can leak the archive Masha gave him—but he can't admit to being the leaker, because that will cost his employer the election. He's surrounded by friends who remember what he did a few years ago and regard him as a hacker hero. He can't even attend a demonstration without being dragged onstage and handed a mike. He's not at all sure that just dumping the archive onto the Internet, before he's gone through its millions of words, is the right thing to do. Meanwhile, people are beginning to shadow him, people who look like they're used to inflicting pain until they get the answers they want. Fast-moving, passionate, and as current as next week, Homeland is every bit the equal of Little Brother—a paean to activism, to courage, to the drive to make the world a better place. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Critical Approaches to Food in Children's Literature Kara K. Keeling 2012-03-20 Critical Approaches to Food in Children's Literature is the first scholarly volume on the topic, connecting children's literature to the burgeoning discipline of food studies. Following the lead of historians like Mark Kurlansky, Jeffrey Pilcher and Massimo Montanari, who use food as a fundamental node for understanding history, the essays in this volume present food as a multivalent signifier in children's literature, and make a strong argument for its central place in literature and literary theory. Written by some of the most respected scholars in the field, the essays between these covers tackle texts from the nineteenth century (Rudyard Kipling's *Kim*) to the contemporary (Dave Pilkey's *Captain Underpants* series), the U.S. multicultural (Asian-American) to the international (Ireland, Brazil, Mexico). Spanning genres such as picture books, chapter books, popular media, and children's cookbooks, contributors utilize a variety of approaches, including archival research, cultural studies, formalism, gender studies, post-

colonialism, post-structuralism, race studies, structuralism, and theology. Innovative and wide-ranging, *Critical Approaches to Food in Children's Literature* provides us with a critical opportunity to puzzle out the significance of food in children's literature.

Cooking Up Library Programs Teens and 'Tweens Will Love: Recipes for Success Megan Emery Schadlich 2015-06-23 Engage teens and 'tweens with library programs that nurture developmental and social needs—and keep young patrons entertained. • Includes complete plans for more than a dozen educational and entertaining programs • Makes connections to STEAM and maker programming • Provides library programming guidance from the perspective of a library play specialist with nearly a decade's experience

The Little House Cookbook Barbara M. Walker 2019-02-27 This award-winning cookbook features more than 100 of the recipes that Laura Ingalls Wilder chronicles in her classic Little House books. A great gift for Little House fans and anyone who wants more information about what life on the prairie was really like. With this cookbook, you can learn how to make classic frontier dishes like corn dodgers, mincemeat pie, cracklings, and pulled molasses candy. The book also includes excerpts from the Little House books, fascinating and thoroughly researched historical context, and details about the cooking methods that pioneers like Ma Ingalls used, as well as illustrations by beloved artist Garth Williams. This is a chance to dive into the world of Laura Ingalls Wilder, American pioneer, women's club member, and farm homesteader. This book has been widely praised and is the winner of the Western Heritage Award from the National Cowboy & Western Heritage Museum in Oklahoma City. The Horn Book praised it as "a culinary and literary feast."

How to Speak Wookiee Wu Kee Smith 2011-08-31 Everyone's been there you're playing holo chess with a Wookiee, and things get out of hand. You've done something to offend him, but you don't know what. How can you defuse the situation? Better yet, how can you make sure you never end up there again? With intergalactic travel easier than ever, Wookiees can now be found on nearly every planet in the galaxy and on starships everywhere in between. This helpful guide teaches citizens of the galaxy key phrases in the Wookiee language, eliminating near-fatal encounters with notoriously short-tempered Wookiees while smoothing the way to lasting partnerships and friendships. The handy sound module recorded by Chewbacca himself! demonstrates proper

pronunciation of ten key phrases.

Star Wars Folded Flyers Ben Harper 2012-01-01 Taking you where no paper airplane book has gone before - the Galactic Empire. This is the only book of its kind that enables Jedi knights to follow their dreams of replicating Star Wars spacecrafts that actually fly! Knights of all ages can transform the pre-printed papers into 6 high-performance fighters including Darth Vader's TIE Fighter, Millennium Falcon, and Naboo Starfighter.

Aerodynamic experts helped engineer these flyers for ease of folding and fantastic flight.

Doctor Who: The Official Cookbook Joanna Farrow 2016-08-11 Whether you're planning a party to watch the latest episode, need a showstopping cake that's bigger on the inside, or want a taste of the TARDIS at teatime, this is the ultimate collection of dishes from across space and time. Keep the munchies at bay with a fleet of Atraxi Snax, and serve an Ood Head Bread with your dinner. Create your very own Picnic at Asgard, or invite the Zygon Pie into your house. And say 'Hello, Sweetie' to a deadly-delicious Dalektable Army, a Peek-a-Boo Pandorica cake, or some simple jelly babies. Each easy-to-follow recipe has step-by-step instructions to show how you can make meals, snacks, cakes and sweets that are truly out of this world.

Wealth And Poverty Of Nations David S. Landes 2015-04-20 The history of nations is a history of haves and have-nots, and as we approach the millennium, the gap between rich and poor countries is widening. In this engrossing and important new work, eminent historian David Landes explores the complex, fascinating and often startling causes of the wealth and poverty of nations. The answers are found not only in the large forces at work in economies: geography, religion, the broad swings of politics, but also in the small surprising details. In Europe, the invention of spectacles doubled the working life of skilled craftsmen, and played a prominent role in the creation of articulated machines, and in China, the failure to adopt the clock fundamentally hindered economic development. The relief of poverty is vital to the survival of us all. As David Landes brilliantly shows, the key to future success lies in understanding the lessons the past has to teach us - lessons uniquely imparted in this groundbreaking and vital book which exemplifies narrative history at its best.

The De-Textbook Cracked.com, 2013-10-29 You are an idiot. Don't get defensive! It's not your fault. For decades your teachers, authority figures and textbooks have been lying to you. You do not have five senses. Your tongue doesn't have neatly segregated taste-bud zones. You don't know what the pyramids really looked like. You're even pooping wrong - Jesus, you're a wreck! But it's going to be okay. Because we're here to help. Packed with more sexy facts than the Encyclopedia Pornographica, the Cracked De-Textbook will teach you about the true stars of history, why you picture everything from Velociraptors to Ancient Rome incorrectly, and finally, at long last - how to pop a proper squat. This book was built from the ground up to systematically seek out, dismantle and destroy the many untruths that years of misguided education have left festering inside of you, and leave you

a smarter person...whether you like it or not. The De-Textbook is a merciless, brutal learning machine. It can't be bargained with. It can't be reasoned with. It doesn't feel pity, or remorse, or fear. And it absolutely will not stop, ever, until you are informed.

The Unofficial Hunger Games Cookbook Emily Ansara Baines 2011-11-01 "Here's some advice. Stay alive." -- Haymitch Abernathy When it comes to The Hunger Games, staying alive means finding food any way possible. Katniss and Gale hunt live game, Peeta's family survives on the bread they make, and the inhabitants of the Seam work twelve-hour days for a few handfuls of grain--all while the residents of the Capitol gorge themselves on delicacies and desserts to the heart's desire. For the first time, you will be able to create delicious recipes from the humble District 12 to the extravagant Capital, including: French Bread from the Mellark Family Bakery Katniss's Favorite Lamb Stew with Dried Plums Rue's Roasted Parsnips Gale's Bone-Pickin' Big Game Soup Capitol-Grade Dark Chocolate Cake If you're starving for more from Katniss, Peeta, and Gale, this cookbook is sure to whet your appetite!

Zombie Cupcakes Zilly Rosen 2011-08-08 Conjuring up her inner George A. Romero, professional cake designer Zilly Rosen focuses her creative attention on crafting a legion of edible undead inside Zombie Cupcakes: From the Grave to the Table with 16 Cupcake Corpses. With a nod to Romero's zombie franchise, Rosen offers instructions for crafting 16 terrifying treats, including: * Toxic Bite * Zombie Rising * Keep an Eye Out * Destroy the Brain and more! Readers can raise their own macabre multitude of Zombie Cupcakes creations from the undead with an average creation time of less than one hour. Each Zombie Cupcakes design includes a full-color photograph of the zombie creation at hand, as well as an illustrated instructional overview and a convenient sidebar list of every item you will need to complete the cupcake.

The Hangover Cookbook Milton Crawford 2011 A lighthearted and accessible guide to surviving a hangover shares dozens of comforting recipes, graphic tests for assessing one's state of mind and quizzes for tracking the recovery process, in a reference that builds on P. G. Wodehouse's infamous six hangover profiles.

This Is Going to Hurt Adam Kay 2019-12-03 In the US edition of this international bestseller, Adam Kay channels Henry Marsh and David Sedaris to tell us the "darkly funny" (The New Yorker) -- and sometimes horrifying -- truth about life and work in a hospital. Welcome to 97-hour weeks. Welcome to life and death decisions.

Welcome to a constant tsunami of bodily fluids. Welcome to earning less than the hospital parking meter. Wave goodbye to your friends and relationships. Welcome to the life of a first-year doctor. Scribbled in secret after endless days, sleepless nights and missed weekends, comedian and former medical resident Adam Kay's *This Is Going to Hurt* provides a no-holds-barred account of his time on the front lines of medicine. Hilarious, horrifying and heartbreaking by turns, this is everything you wanted to know -- and more than a few things you didn't -- about life on and off the hospital ward. And yes, it may leave a scar.

The Hypomaniac Edge John D. Gartner 2008-06-23 Why is America so rich and powerful? The answer lies in our genes, according to psychologist John Gartner. Hypomania, a genetically based mild form of mania, endows many of us with unusual energy, creativity, enthusiasm, and a propensity for taking risks. America has an extraordinarily high number of hypomanics—grandiose types who leap on every wacky idea that occurs to them, utterly convinced it will change the world. Market bubbles and ill-considered messianic crusades can be the downside. But there is an enormous upside in terms of spectacular entrepreneurial zeal, drive for innovation, and material success. Americans may have a lot of crazy ideas, but some of them lead to brilliant inventions. Why is America so hypomaniac? It is populated primarily by immigrants. This self-selection process is the boldest natural experiment ever conducted. Those who had the will, optimism, and daring to take the leap into the unknown have passed those traits on to their descendants. Bringing his audacious and persuasive thesis to life, Gartner offers case histories of some famous Americans who represent this phenomenon of hypomania. These are the real stories you never learned in school about some of those men who made America: Columbus, who discovered the continent, thought he was the messiah. John Winthrop, who settled and defined it, believed Americans were God's new chosen people. Alexander Hamilton, the indispensable founder who envisioned America's economic future, self-destructed because of pride and impulsive behavior. Andrew Carnegie, who began America's industrial revolution, was sure that he was destined personally to speed up human evolution and bring world peace. The Mayer and Selznick families helped create the peculiarly American art form of the Hollywood film, but familial bipolar disorders led to the fall of their empires. Craig Venter decoded the human genome, yet his arrogance made him despised by most of his scientific colleagues, even as he spurred them on to make great discoveries. While these men are extraordinary examples, Gartner argues that many Americans

have inherited the genes that have made them the most successful citizens in the world.

Whose Weight is it Anyway? Sofie Vandamme 2010 Scholars from various disciplines address the ethical perspective of changing food habits in general, and the promotion of healthy eating in particular.

The Star Wars Party Book Mikyla Bruder 2002-07 Presents entertaining ideas for hosting a Star Wars theme party. Includes food recipes, craft projects, and games.
