Sneed B. Collard III's Most Fun Book Ever About Lizards Sneed B. Collard III 2012-02-01 Lizards are cool. Literally. They are ectotherms, which means they can't make their own heat. That's why you see many types of lizards basking in the sun, seemingly doing nothing at all. That's the life. But make no mistake, lizards have very busy lives—looking for food and avoiding being food. Popular science writer Sneed B. Collard III gets down and dirty with all kinds of lizards—from your average "Joe Lizard," the western fence lizard, to the impressively large Komodo dragon. In a kid-friendly narrative, Sneed explores many different kinds of lizards, their habitats, defense systems, hunting techniques, and mating rituals. He reveals the exciting life of a lizard—from rappelling from the tops of trees to the forest floor, to dropping off a tail to get away from a predator.

Everything You Need to Know About Snakes DK 2013-01-16 From speedy slithering creatures and living dragons to snakes that fly and shed skin, Everything You Need to Know About Snakes explores the fascinating world of reptiles. Readers will discover how far a cobra can spit, a gallery of fangs, how to survive a snake attack, the life cycle of a snake, and the Titanoboa—a 50-foot-long prehistoric snake—while also learning about lizards, crocodiles, tortoises, and turtles. Includes incredible images, fun games and quizzes, plus shocking facts on anatomy, diet, and behavior, kids will want to dip into this e-guide time and again.

Animal Defenses Christina Wilsdon 2009-01-01 Insects that look like leaves, snakes that play dead, fish that fly, and toads with poisonous skin—these creatures are among many that defend themselves in fascinating ways. Animal Defenses presents the wide variety of physical and behavioral adaptations used by animals and insects in their struggle to survive and shows how scientists continue to make

new discoveries about the age-old maneuvering between predator and prey.
